guns are not of much use
at present against an
air-ship flying 10,000
feet up in the sky.
America is behaving in
an extraordinary way over
the Submarine question, &
France, by the time no
decent minded American
has much self-respect left
England is very quiet, &
as for the War, in all
expert and developments
directly the Wielen is over
it is possible for the troops
to move. I fancy General
Smuts will make a thorough
good job of the German
East African campaign

My dear Mirza

I was obliged to
spend £3-3-4 on Cables
to the Viceroy, through the
India office, about Mat
Hose Carrick Fergus. The
Board of Agriculture here
were pressing Col. Jones for
a definite reply & he could
not wait. I enclose the
bills relating to these
Telegrams & the receipt
for the money from me by

Please give my best salaam to H.H. the Aga Khan & Gerard & Willie and Edward & Reginald & Vincent & Raleigh

the India Office. Would you
kindly send them to
Scott + get a refund for
me? The money may be
paid into my current-
account with the Bank
of Madras.
I cannot tell you yet as
what date I shall start
for India, as the P&O
Sailings for April + May
are not out yet.
I have little news of sin
you. Miss Campbell is
in a nursing home, as
she has to have a tooth
taken out under Chloroform.
The tooth is a buried one which
has never come through
the gums, and it has
to be cut out. Dr. has great
hopes that it is this tooth
which may have set up
nerve irritation, + caused
her asthma. She is really
very much better now -
my son, at the front, is
to be out of the trenches
for the next 10 days.
The Principal topic at home
now is the question of
preventing the Zeppelin
Raids. It is a difficult
problem, as we have
no Zeppelins of our own,
and the Anti-air-craft
